Please List a Job/Career Goal You Are Interested In

Job/Career Goal Title: Video Editor_____

Provide a General Description of the Job/Career (Work indoor/outdoor, etc.)

As a film or **video editor**, I would be responsible for assembling recorded raw material into a finished product that's suitable for broadcasting. The material may include camera footage, dialogue, sound effects, graphics and special effects.

Identify the Degree, Certification, and/or Special Training Needed (List major, degree needed, licenses. Certification, major courses of study)

At this point in time, I have not decided on my exact path. I am considering a career in the entertainment industry as a Video Editor. I have not talked with a career counselor about what type of degree that would entail.

List Current Work Experience

I am currently employed at Fred Meyer in Richland as a front end Courtesy Clerk. I do have the experience of a full school year in Digital Arts and Filmmaking and plan to take the Cyber security class at Tri-Tech next year.

Identify Your Plan of Action (How will I get to this job/reach this career goal?)

I will meet with a career counselor who will help me determine the best course of action for my goal. I know it will take dedicated, hard work but I am willing to put in the work needed to reach my goal.

Identify the High School Courses Needed to Reach Career and Post-Secondary Goals

N/A Home School
